

Spiritual Growth Process Workshop

Are you ready to live the life you desire?

Do you know what is keeping you from the joyful life of your dreams? Your future is in your hands, and there is a systematic way to get to it! The Spiritual Growth Process is designed to help you overcome the obstacles to the life you truly desire by accessing the guidance available within all of us. The objective of the process is to connect you with your internal guidance and help you remove your own unique roadblocks to your grandest desire, which is in glorious harmony with everyone else's grandest desire.

In a comfortable, small group setting, John Longo will share what he has learned about enabling spiritual growth and manifesting true desires with those ready to understand what is holding them back and how to achieve their goals. With a combination of presentation, exercises, and discussion, this workshop is meant for people exploring broader consciousness for the first time, as well as those more experienced and interested in learning more or comparing approaches.
